

The Balloon

Female, Age 25, Grenada.

“Oh that balloon, the inflation of it makes me sick, so sick, I want to vomit.

The inflation of that balloon reminds me about the pain when a man’s sexual organ is penetrating inside me.

The pressure of the penis makes me shed tears each time.

God help me each time I cry because I just wanted to die. I will try all kinds of ways to kill myself even up to this day. Lord have mercy on me.

The air entering the balloom as it rises.

It reminds me of the penis rising in my own flesh and blood. I want to take a pin and deflate it. I want to pin myself.

Lord I am so tired of this.”
